# CORRUGATED BOXES

**PLAIN BOX**

**PRINTED BOX WITH LID**

**BINS**

**HEAVY DUTY BOXES**

**PARTITIONS**

**SPL PARTITIONS**

**LAYER PAD**

**ANGLE BOARDS**

**3 Ply Carton Boxes** with different flute types such as **E/A/B/C**. These multicolored printed cartons offer excellent strength and are suitable for a wide range of products.

**5 Ply Carton Boxes** with different flute types such as **BB/BC/AC**. These boxes provide enhanced durability and are ideal for heavier or bulkier items.

**7 Ply Heavy Duty Carton Boxes/Export Containers** with different flute types such as **AAC**. These boxes are suitable for challenging transportation and export requirements.

# RELEASE LINERS

**POLYCOATED  
RELEASE LINERS**

**SUPERCALENDERED  
KRAFT LINERS**

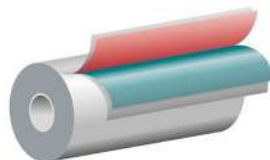

**GLASSINE  
RELEASE LINERS**

**SILICON COATED  
RELEASE LINERS**

**CLAY COATED  
KRAFT LINERS**

**FILM BASED  
RELEASE LINERS**

## INDUSTRIES AND APPLICATIONS

Our solutions are ideal for the production of pressure-sensitive labels, ensuring optimal adhesion and performance.

Experience superior bonding and reliability with our products that are well-suited for self-adhesive tape manufacturing.

We offer specialized solutions for the hygiene industry, ensuring reliable release and comfort in the production of sanitary napkins and related products.

We understand the unique demands of each industry and provide customized solutions to meet their specific needs.

With our polycoated release liners, glassine release liners, supercalendered kraft liners, clay-coated kraft liners, and film-based release liners, we offer versatility in substrate options and release properties. Our silicone-coated release liners, available in various GSM ranges, ensure smooth and efficient release of adhesive materials.

By choosing our release liners, you can expect enhanced efficiency, reduced waste, improved product quality, and increased production throughput. Partner with us to benefit from our expertise, reliable solutions, and commitment to delivering exceptional performance in your industry.

**WOODEN CRATES**

**SLOTTED PALLET**

**TOP CLOSED PALLET**

**WOODEN REEL**

**WOODEN BIN**

**WOODEN BOX**

**Fumigated with Certification:** Our wooden packaging products are fumigated to eliminate pests and ensure compliance with international phytosanitary regulations. We provide certification to guarantee the quality and safety of our products.

**Chemical Heat Treated with Certification:** To meet specific export requirements, we offer wooden crates, pallets, and containers that undergo chemical heat treatment. This process ensures the elimination of pests and provides certification for compliance.

# ANTI-CORROSION PRODUCTS

Volatile Corrosion Inhibitor (VCI) technology is our secret weapon against the damaging effects of rust.

At SPS Packaging, we incorporate VCI compounds into our packaging materials, such as paper and poly film, to provide reliable corrosion protection. VCI compounds emit specialized vapors that create a protective layer on metal surfaces, displacing moisture and preventing corrosion
